Unit 2: The Worm Bin

Mission — Bin Blueprint: design a bin on paper with a one-week feeding calendar. Level Up — bin math (worms eat roughly half their body weight per day).

Day	Food added	Amount	Bin check (dry / wet / smell)

Rule that saves every beginner: pooled liquid = too wet. Add dry bedding. That liquid is leachate, NOT worm tea — never pour it on plants.

Teen bin math — household scraps per week:
Worms needed:
Bin size needed:
